

WORLD-CLASS MEDICAL EQUIPMENT CARRY BAGS

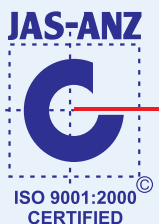

Products of the highest standards

RAPP Australia Pty Ltd, NEANN's parent company, has since 2012 worked within an ISO 9001:2015 Quality Management System, our products meet Australian Standards and TGA registration when appropriate and any product designed and manufactured by us undergoes stringent assessment and evaluation prior to release.

Quality
ISO 9001

OUR PURPOSE

RAPP Australia Pty Ltd is Australia's leading designer and manufacturer and of pre-hospital ambulance and hospital department medical equipment carrying and storage solutions. Whether it be for resuscitation, trauma, drug kits or monitoring equipment, our range is designed for the professional.

RAPP Australia Pty Ltd is ISO 9001:2015 accredited and has a rigorous process for ensuring that we meet our clients' expectations each time.

Our company mission

Everything we do is based around our three foundation goals:

- **Effectiveness** • **Reliability**, and • **Safety-of-use**.

Future commitment

To maintain our leadership position, we commit to:

- Continuously apply innovation to our existing products.
- Listen to our customers so we understand their needs correctly.
- Constantly search the world for the latest in best-practice, and introduce those which fit as soon as practicable.

TAILORED SOLUTIONS

Ask us to help design a system to suit your requirements. With years of design experience, we can deliver a great value for money product that will improve your operations that is environmentally friendly and will outperform our competitors' products.

Our workstation and equipment carrying solutions can provide:

- Elimination of contents search and select stress lowering the user's cognitive load.
- Clear, easy to read labels and user instruction artwork.
- Increased cleanable surface both outside and inside with anti-microbial textiles.
- Reduction in weight and the removal of potential catch points.
- Improvements to your staff workflow will save you time and money.

PRODUCT RANGE

NEANN is the medical equipment division of RAPP Australia Pty Ltd, and is a leader in the medical equipment industry. Our focus of the division is to design, develop and provide first response, emergency and hospital medical equipment and supplies that are effective, reliable and safe-to-use.

Our products can be found in Australia's ambulances, hospitals, clinics and emergency service teams. RAPP Australia Pty Ltd holds ongoing contracts with all Australian State Governments as well as leading emergency agencies, worldwide.

NEANN Advanced Drug Kit

■ **SKU** 50-001-0635-0386

Compatible with the NEANN PRK Kit 50-001-0630-0192 (fits in front pocket), the Advanced Drug Kit is designed to store and transport IV / Cannulation gear, drugs ampoules, bottles, and blister packs.

- IV Access gear set up in order of use for insert of IV.
- An unique drug labelling system for easy identification of drugs with removable drug and IV Cannula loops to allow for changing drugs or customised layouts.
- Heavy duty lockable zip allowing good access to interior with security and the yellow zip pull tab extension allowing ease of grab whilst wearing gloves.

Approximate dimensions – Length 48.0cm x Width 21.5cm x Height 10.0cm.
Weight when empty – 1.16kg // **Colour** – Yellow

NEANN ¾ Drug Kit

■ **SKU** 50-001-0627-0386

Designed to fit inside a range of bags including NEANN TEK+ and NEANN Patient Transport Kit. This kit is created to store large range and number of ALS drugs and transport IV / Cannulation gear, drugs ampoules, bottles, and blister packs.

- IV Access gear set up in order of use for insert of IV.
- Removable Velcro drug and IV Cannula loops to allow for changing drugs or ampoule presentations.
- Potential to order customisable and unique MEDIS drug loops for easy identification of drugs (extra cost).
- Layout guide to assist in checking and restocking kit.

Approximate dimensions – Length 35.0cm x Width 21.5cm x Height 10.0cm.
Weight when empty – 0.87kg // **Colour** – Yellow

NEANN FAB Drug Kit

■ **SKU** 50-001-0629-0386

A small, compact Drug Kit designed to fit inside the Trauma section of the NEANN FAB (First Aid Backpack) 50-001-0628-0422 (ordered separately) and to store and transport Drugs, IV Access Equipment and small Sharps Container.

- Removable unique MEDIS labelled drug and IV Cannula loops to allow for changing drugs or ampoule presentations.
- Potential to order customisable and unique MEDIS drug loops for easy identification of drugs (extra cost).
- Middle flap panel creates more space for contents and is removable for future updates.

Approximate dimensions – Length 26.0cm x Width 18.0cm x Height 9.0cm.
Weight when empty – 2.0kg // **Colour** – Yellow

Pyxis Compatible Lockable Drug Pouch

■ **SKU** 50-001-8841-0386

A small, compact Drug Kit designed to store and transport Restricted drugs, Pyxis CUBIE drawer system compatible size.

- High density foam padding: to protect contents and a heavy duty lockable zip to secure drugs
- Middle flip panel: increases internal storage area and allows grouping of drug types
- Removable elastic drug loops: ease of re-stocking and replacing if drugs sizes are changed with label insert sections next to the drug loops for customized labelling
- Stretchy pocket for storage of small items and a clear sleeve to store drug labels or contents list.

Approximate dimensions – 18.0cm x Width 9.0cm x Height 5.5cm.

Weight when empty – 0.21kg // **Colour** – Yellow

NEANN ¾ Airways Kit

■ **SKU** 50-001-0633-0369

A fully self-contained advanced airway management kit, designed to store and transport airways access equipment.

- Full range of intubation equipment all visible for performing intubation.
- Each item has its own pocket or elastic to ease access to all equipment.
- No equipment is hidden; all is easily visible for rapid equipment checks and access in an emergency.

Approximate dimensions – 35.0cm x Width 21.0cm x Height 10.0cm.

Weight when empty – 0.71kg // **Colour** – Green

3/4 Airways Kit – Paediatric panel only

■ **SKU** 50-001-0642-0422

NEANN's 3/4 Airways Paediatric Panel is specifically designed for use in the NEANN 3/4 Airways Kit as an additional option and it is designed to hold the list below:

- 1 x Blade Mac #1
- Blade Mill #00, #0, #1
- ETT Size 3, 3.5, 4, 4.5, 5
- 2 x Stylet
- ETT sizing chart displayed

Approximate dimensions – Length 34.0cm x Width 20.0cm0.

Weight when empty – 0.2kg // **Colour** – Grey

NEANN PRK (Paramedic Response Kit)

■ **SKU** 50-001-0630-0192

The NEANN PRK is designed to store and transport Primary Response equipment, this versatile kit can carry a range of intensive care and trauma equipment. The large front/top pocket is designed to carry an Advanced Drug Kit.

The inside of the lid is magnetic and interchangeable between an Airway, IV or Trauma panel (each sold separately).

- Open internal design to allow gear to be easily located with wide range of internal and external storage pockets.
- External cervical collar holder and external magnetic and removable sharps container with a 'Sharps attach' locator on bag to quickly re-attach Sharps holder.
- Backpack straps that can be hidden when not in use.

Approximate dimensions – 57.0cm x Width 30.0cm x Height 30.0cm.

Weight when empty – 2.7kg // **Colour** – Red

PRK Lid Panel Insert – Airways

■ **SKU** 50-001-0636-0422

Empty, Removable. NEANN's PRK Lid Magnetic Panel Inserts are specifically designed for use in the NEANN Paramedic Response Kit (PRK) as an internal removable/interchangeable lid panel.

- Magnetic removable panel: allows the panels to be replaced or updated.
- Water resistant fabric: Allows ease of cleaning and minimizes cross contamination.
- MEDIS labelling: Improves on scene efficiencies through quick identification of contents because everything has a place and is in its place.

| • 1 x Forceps | • 2 x Chlorhexidine for Irrigation 30ml | |
| • 1 x Pen Light | | |

Approximate dimensions – 38.0cm x Width 27.0cm.

Weight when empty – 0.23kg // **Colour** – Grey

NEANN TEK (Trauma Equipment Kit)

■ **SKU** 50-001-0632-0192

NEANN TEK is an all-purpose trauma equipment kit designed to carry a large range of first aid items in an easy to find layout. Designed to store and transport Primary Response equipment specifically Trauma focused.

- “Sharps attach” locator on bag: quickly re-attach Sharps holder, no search time (sold separately).
- Top pocket: for documents or tablet and a clear ID window to customise bag with business card.
- Internal lid for trauma gear and removable dividers in main compartment to organise contents in the main section.

Approximate dimensions – Length 38.0cm x Width 29.0cm x Height 22.0cm.

Weight when empty – 1.6kg // **Colour** – Red

NEANN EZ-IO Pouch

■ **SKU** 50-001-8728-0369

With its compact size to fit easily inside other emergency kits, this EZ-IO Pouch has been designed to store and transport an intraosseous infusion (IO) device and five needle sets as well as related equipment.

- Foam rigidity to top and bottom for maintaining form and impact resistance.
- Internal MEDIS labeling – RAPP Australia’s unique internal drug labelling system which improves on scene efficiencies for easy identification of items.

Approximate dimensions – 14.0cm x Width 12.0cm x Height 10.0cm.

Weight when empty – 0.18kg // **Colour** – Green

NEANN FAB (First Aid Backpack)

■ **SKU** 50-001-0628-0422

Our advanced first aid backpack designed for a medical professional to carry a large range of first aid items, a drug kit and a defibrillator.

- Multiple storage pockets for a large range of equipment including to store and transport assessment and trauma equipment and a drug kit.
- Elasticated side holders: for carrying Emesis bowls or Water bottles.
- Universal First Aid logo which allows ease of identification.
- MEDIS labelling: Improves on scene efficiencies through quick identification of contents and minimising search/select issues.

Approximate dimensions – Length 45.0cm x Width 33.0cm x Height 24.0cm.
Weight when empty – 1.94kg // **Colour** – Grey

NEANN BPR (Backpack Resuscitator)

■ **SKU** 50-001-0153-0637

The Backpack Resuscitator is designed to store and transport an Oxygen cylinder and related resuscitation equipment with the ability to mount suction on the outside of the kit to prevent internal soiling.

- Removable storage pouches and all equipment immediately visible on opening with clear pockets (no hidden equipment).
- Rigid design means the kit can operate standing (for confined spaces) or lying down.
- Suction equipment and BVM/LMA pouches with room for a C-sized or Inhalo O2 cylinder.

Approximate dimensions – Length 62.0cm x Width 35.0cm x Height 22.0cm.
Weight when empty – 4.1kg // **Colour** – Blue

NEANN PRK (Paramedic Response Kit)

■ **SKU** 50-001-0630-0192

The NEANN PRK is designed to store and transport Primary Response equipment, this versatile kit can carry a range of intensive care and trauma equipment. The large front/top pocket is designed to carry an Advanced Drug Kit.

The inside of the lid is magnetic and interchangeable between an Airway, IV or Trauma panel (each sold separately).

- Open internal design to allow gear to be easily located with wide range of internal and external storage pockets.
- External cervical collar holder and external magnetic and removable sharps container with a “Sharps attach” locator on bag to quickly re-attach Sharps holder
- Backpack straps that can be hidden when not in use.

See lid inserts for the PRK under Trauma Kits.

Approximate dimensions – Length 57.0cm x Width 30.0cm x Height 30.0cm.
Weight when empty – 2.7kg // **Colour** – Red

OxyresQ Resus Kit

■ **SKU** 50-001-8722-0369

■ **SKU** 50-001-8722-0637

Ergonomically designed to store and transport oxygen cylinder, regulator, masks, and related equipment. Top pouch will carry oropharyngeal tubes, BVM and Venturi suction and capture jar.

- Clear and open layout design eliminating search and select issues
- Detachable top pouch attached by magnets.
- Clear windows both sides and top of pouch to view gauges and pouch contents:

Approximate dimensions – Length 59.0cm x Width 15.0 cm x Height 32.0cm.

Weight when empty – 2.1kg // **Colour** – Green or Blue

OxyresQ+ Resus Kit

■ **SKU** 50-001-0643-0369

A comprehensive oxygen resuscitator designed to carry all your PPE and resuscitation equipment. Designed to store and transport oxygen cylinder and related resuscitation equipment, including BVMs, suction, guedels, masks, shears, pulse oximeter and PPE with all equipment immediately visible on opening (no hidden equipment), with each item of equipment has its own pocket or elastic.

- Ergonomic carrying design with a small work area due to unique design.
 - Built-in layout guide to assist in equipment placement including window labels to ensure equipment is replaced where it should be.
 - External venturi suction and capture jar storage pocket.

Approximate dimensions – Length 63.0cm x Width 22.0 cm x Height 26.0cm.

Weight when empty – 2.59kg // **Colour** – Green

Aquatic OTK (Oxygen Therapy Kit)

■ **SKU** 50-001-0331-0637

NEANN's oxygen therapy bag for beach use and environments near water.

- External mouse hole for access to cylinder on/off valve as well as an external manual suction storage pocket
- Each item of equipment has its own pocket or elastic and all equipment immediately visible on opening (no hidden equipment) with window labels to ensure equipment is placed where it should be
- Built-in layout guide to assist in equipment placement.

Approximate dimensions – Length 60.0cm x Width 30.0 cm x Height 30.0cm.

Weight when empty – 3.19kg // **Colour** – Blue

NEANN Defib Case

■ SKU 50-001-0304-0192

Designed to store and transport a defibrillator and its related accessories. It fits in the front pocket of the OTK.

- Rigidity to lid and base so it maintains form and adds impact resistance
- Clear sleeve: Provides easy storage of documents
- Everything has a place and is in its place: Eliminates 'Search and Select' issues and potentially a cost saving by eliminating overstocking.

Approximate dimensions – Length 34.0cm x Width 22.0cm x Height 12.0cm.

Weight when empty – 0.65kg // **Colour** – Red

NEVAC Variable Suction Unit with Gauge, On/Off Valve, Control Knob and Tubing

SKU 50-001-4131-0000

Compatible with the OxyresQ and OxyresQ+ resus kits.

- Venturi suction units with variable suction control and on/off tap control.
- Can be operated directly from either an Oxygen or medical air gas supply.
- Units are available to fit to a cylinder or a gas supply outlet point.
- It is ideal for portable use and for use in areas where vacuum pipeline installations or electrical suction units are not available.

NEVAC 500ml Disposable Suction Canister Kit (Box of 5)

SKU 50-001-8057-0000

The Pharyngeal Suction Capture Container is a Class 1 medical device for Single Patient Use and is designed to store body fluids that are drawn in from a connected aspiration device. The integrated filter will automatically seal the container through the vacuum passage once the container is full or fluid contacts the filter (due to inversion etc.) to prevent contamination of the operator and/or vacuum generating devices.

NEANN Patient Transport Kit

■ **SKU** 50-001-0185-0637

An easy-to-use, well-padded bag, designed for Intensive Care Units or Hospital in the Home to store and transport medical equipment and accessories.

- Main compartment dimensions will allow for one $\frac{3}{4}$ Airways and one $\frac{3}{4}$ Drug Kits (sold separately).
- Three large external side pockets with Magnetic pocket flaps (quick access and self-closing) and five stash pockets and one sleeve in main compartment.
- Magnetic and replaceable sharps holder with locator: bag supplied with 600ml holder.

Approximate dimensions – Length 45.0cm x Width 26.0cm x Height 23.5cm.

Weight when empty – 1.6kg // **Colour** – Blue

Transport Kit+

■ **SKU** 50-001-0649-0192

Easy to use, well-padded bag, designed for Intensive Care Units or Hospital in the Home to store and transport medical equipment and accessories.

- Eight large external pockets with magnetic pocket flaps: quick access and self-closing (each 14.0 cm W x 18.0 cm H x 8.0 cm D)
- Two pockets inside lid, five stash pockets and one sleeve in the main compartment
- Built in: 'Sharps Attach' locator for magnetic sharps holder: quickly re-attach Sharps holder (not included), to eliminate search time.

Approximate dimensions – Length 63.0cm x Width 43.0cm x Height 27.5cm.

Weight when empty – 2.73kg // **Colour** – Red

Hospital in the Home (HITH) Equipment Kit

■ **SKU** 50-001-0171-0192

■ **SKU** 50-001-0171-0369

■ **SKU** 50-001-0171-0637

This kit is a premium quality solution to your equipment carrying needs by enable the user to provide a professional clinical visit without interruptions by providing product specific allocation including HITH equipment and personal items.

- Large side release buckle: secure trolley attachment (trolley sold separately) when used in conjunction with HITH Vehicle Kit 50-001-0170-0637 (sold separately).
- External compartment with magnetic lid flap: auto close and security for contents and has seven clear fixed pockets: various sizes.
- Four removable pouches in main compartment and one removable desk panel: instant clean work surface.

Approximate dimensions – Length 45.0cm x Width 32.0cm x Height 21.0cm.

Weight when empty – 2.7kg // **Colour** – Red, Green or Blue

Hospital in the Home (HITH) Vehicle Kit

■ **SKU** 50-001-0170- 0192

■ **SKU** 50-001-0170-0369

The HITH Vehicle Kit is designed to provide room to carry all the days' patient notes, a laptop and fluids or extra patient specific drugs or consumables you may need, with a handy trolley to guide around in (sold separately). The NEANN HITH Vehicle Kit and the NEANN HITH Equipment Kit complement each other to provide the ultimate set of Hospital In the Home transport of medical supplies.

- Large side release buckle/set belt loops allowing secure trolley attachment and safe securing in vehicle via seat belts.
- Large external pocket with magnetic flap lid allowing for security of contents.
- Removable and movable dividers and padded, adjustable and replaceable shoulder sling.

Approximate dimensions – Length 38.0cm x Width 32.0cm x Height 34.0cm.

Weight when empty – 2.5kg // **Colour** – Red or Green

PPE Door Caddy

■ **SKU** 50-001-8821-0386

A versatile PPE Door Caddy ideal for carrying a wide range of easily accessible PPE items for hospitals and aged care facilities.

- Clear sleeves x 2: Provide easy storage of A4 sized documents.
- Large, easy access pockets: clearly labelled and customized to hold wipes, gowns, and laundry bags.
- Masks and gloves pockets: clearly labelled and customised to release masks and gloves from enclosed box.

Approximate dimensions – Length 114.0cm x Width 65.0cm.

Weight when empty – 1.66kg // **Colour** – Yellow
